arunmundackal7@gmail.com

OBJECTIVE

Passionate Full-Stack Developer with a strong interest in Game Development, currently enrolled in a comprehensive coding bootcamp at the University of Arizona. Passionate about creating immersive digital experiences and seeking an opportunity to apply technical skills, innovative thinking, and dedication to crafting impactful web solutions and captivating games.

SKILLS

Front-End Development -

- Proficient in HTML: Creating clean, semantic markup for visually appealing and accessible web interfaces.
- Strong command of CSS: Implementing responsive designs and modern styling techniques to enhance user experiences.
- JavaScript expertise: Developing interactive and dynamic web applications to provide seamless user interactions.
- Familiarity with jQuery: Utilizing the power of jQuery to simplify DOM manipulation and enhance user interface interactions.
- Familiarity with React: Building modern, reusable, and component-based UIs to create efficient and interactive front-end applications.
- Experience with Bootstrap: Creating responsive and mobile-friendly layouts using the Bootstrap framework to ensure optimal user experiences across devices.

Back-End Development -

- Skilled in Node.js: Building scalable and efficient server-side applications to handle complex business logic and data management.
- API Development: Designing and implementing robust APIs for seamless data communication between different components and systems.

Database Management -

- Proficient in MySQL: Designing and managing relational databases to store and retrieve data efficiently.

-
- Knowledge of MongoDB: Implementing NoSQL databases for flexible and scalable data storage and retrieval.

EXPERIENCE

Harkins Theater, San Tan Village 16

- *Team Member*

October 2015 - August 2019

- Provided exceptional customer service to enhance the movie-going experience.
- Maintained a clean and organized work environment in various roles, including door, usher, concessions, and box office.
- Demonstrated strong multitasking abilities and the ability to work under pressure.

Doordash

- *Deliver Driver*

January 2020 -

- Ensured prompt and accurate delivery of orders to customers.
- Demonstrated time management skills to efficiently handle multiple deliveries.
- Adhered to traffic and safety regulations while navigating delivery routes.

Dignity Health, Chandler Regional Medical Center

- *Monitor Technician*

September 2022 - December 2022

- Applied strong attention to detail and accuracy in monitoring and interpreting complex cardiac rhythms and vital signs.
- Demonstrated exceptional problem-solving skills by promptly identifying and addressing any abnormalities or critical changes in patient data.
- Developed a high level of proficiency in using advanced monitoring equipment and software systems.

Rocket League

- *Esports Coach*

January 2022-

- Provided comprehensive coaching and training to improve players' skills, game sense, and teamwork in Rocket League esports.
- Developed strategic game plans, analyzed gameplay, and offered constructive feedback to enhance players' performance.

-
- Organized team practices, managed tournament participation, and fostered a positive team environment to achieve competitive success.

EDUCATION

Highland High School

- HS Diploma

August 2012 - May 2016

- Studied Spanish for three years, developing language skills and cultural awareness
- Engaged in theater, honing creativity, public speaking, and stage presence.
- Pursued studies in anatomy and agriculture, demonstrating a strong interest in science and practical knowledge.
- Adaptable and committed to learning, showcasing the ability to excel in diverse areas.
- Engaged in competitive soccer, fostering teamwork, discipline, and perseverance.

Chandler-Gilbert Community College

- Associates in Applied Science

2019 -

- Actively pursuing an Associates in Applied Science degree.

Pima Medical Institute

- Certified Nursing Assistant

August 2021 - September 2021

- Obtained Certified Nursing Assistant (CNA) license at PMI, demonstrating commitment to professional growth and compassionate care.
- Assisted residents in diverse healthcare settings, including Hospice, Long-Term Care, Rehab, and Alzheimer's and Dementia units.
- Provided support with daily living activities, including bathing, dressing, grooming, and toileting.
- Recorded and monitored vital signs, abnormal behaviors, and blood pressure to ensure the well-being of patients.
- Maintained accurate documentation of input, output, and activities of daily living in computer systems.

University of Arizona

- Coding Boot Camp

March 2023 - September 2023

- Completed an intensive coding boot camp focused on full-stack web development, gaining proficiency in HTML, CSS, JavaScript, and more.
- Collaborated with a diverse team on real-world projects, practicing agile development methodologies and building practical coding skills.
- Acquired knowledge of industry tools, technologies, and best practices, including version control, APIs, and deployment strategies.
- Demonstrated problem-solving abilities, a strong work ethic, and a dedication to continuous learning and self-improvement.

GOALS & ACCOMPLISHMENTS

- Achieved CNA license at Pima Medical Institute, demonstrating dedication to providing compassionate healthcare
- Enrolled in a comprehensive coding bootcamp at the University of Arizona to enhance technical proficiency in web development.
- Completed a significant portion of the required credits towards Associates in Applied Science degree.
- Committed to continuous personal and professional growth through a combination of academic pursuits and hands-on learning.
- Looking forward to leveraging academic foundation and advancing towards a Bachelor's in Computer Science to further expertise in the field.

INTERESTS

Game Development -

- Passionate about exploring game development opportunities and expanding skills in Unity 3D.
- Eager to learn and utilize C# programming for game mechanics and logic.

Languages -

- Java: Exploring its potential for desktop and Android app development.
- C++: Interested in system programming and game development.
- C#: Eager to utilize it for Windows desktop applications and game development with Unity.
- Python: Intrigued by its applications in data analysis, machine learning, and scripting.

-
- Ruby: Curious about web development possibilities with Ruby on Rails framework.
 - PHP: Interested in server-side web development and dynamic websites.
 - Swift: Excited about iOS and macOS app development.
 - TypeScript: Interested in enhancing JavaScript for large-scale applications and front-end development.
